

TOBIN Straight-Line Hierarchy

REVISED
06/08/04_2

RULE BASE

Base level (Child)
 Grantee will become an attribute carried in the abstract layer, Survey will become parent in the hierarchy
 Labor will always have a parent survey
 League will be an attribute carried in the labor, it may or may not be populated.
 For Labor , If section is populated move to League field and section becomes null
 District will always have a parent of County
 OS Block will always have parent of Area (County)
 LABOR/LEAGUE HIERARCHY is separate from the ABSTRACT HIERARCHY

If Survey = Twp/Rng then Base Level = Section
 If Survey = Original Grantee then Base Level = Abstract
 If Survey = Jr. Grantee then Base Level = Jr. Abstract
