## Vol 12, November 2008 P2 Energy Solutions' Data on Demand

### Obtain the Most Up-to-Date Lease and Well Information, Utilizing the new P2 Energy Solutions' Data on Demand

To obtain the most up-to-date lease and well information, you can now utilize the new P2 Energy Solutions Data On Demand Web site at <http://p2es.datadoors.net/DataDoorsWeb/Order.aspx>.

P2 Energy Solutions Data On Demand allows you to view and purchase Tobin's hard copy maps from the Internet, as displayed in Figure 1.

Our system decreases your order time and increases your order accuracy. We have automated many parts of the order process, and you can now review the Tobin hard copy maps before making a purchase.

Payment is easy, either by credit card or with a corporate account. In addition, you can view metadata items such as the last update date for the lease or well layers. We update these maps on a monthly basis.

## Data available through Data On Demand

Map coverage includes areas in Louisiana, Texas, Mississippi, Oklahoma and New Mexico. Tobin lease summary map coverage as displayed in Figure 2 and Tobin lease strip map coverage is displayed in Figure 3.

Our maps include all pertinent legal boundaries, state lines and county lines. These maps also include select roads, pipelines, land and water forms, subdivisions and property ownership as recorded at the time of mapping. We post current leases and wells regularly for the most up-to-date and cost effective maps available. Metadata allows you to determine the last update date for each layer.
