Tobin Map Data – P2 Energy Solutions Data on Demand!

What is P2 Energy Solutions Data on Demand?

P2 Energy Solutions is proud to announce its new P2 Energy Solutions Data on Demand Web site at: <http://p2es.datadoors.net>. P2 Energy Solutions Data on Demand allows you to view and purchase Tobin's hard copy maps from the internet. Our system decreases order time and increases your order accuracy. We have automated many parts of the order process and you can now review the Tobin hard copy maps before you purchase them. Payment is easy, either by credit card or with a corporate account.

P2 Energy Solutions Data on Demand allows you to purchase either Tobin lease summary maps or Tobin lease strip maps. Tobin lease summary maps are 1"=2000' 7.5 minute quads and the Tobin lease strip maps are 1"=2000' in scale, 36" wide and variable in length.

Maps are available on paper without reproduction rights or with limited reproduction rights in Adobe PDF or reproducible formats (only lease summary maps are available in film format). You can download PDF format files from a secure ftp site or receive a DVD or CD-ROM delivered straight to your office. P2 Energy Solutions ships paper or film maps to addresses within the United States.

Upcoming Event

2008 P2 Energy Solutions User Conference

Keystone Resort and Convention Center Keystone, CO

Data available through Data on Demand

Map coverage includes areas in Louisiana, Texas, Mississippi and Oklahoma. Our maps include

all pertinent legal boundaries, state lines and county lines. These maps also include select roads, pipelines, land and water forms, subdivisions and property ownership as recorded at the time of mapping. Leases and wells are posted regularly for the most up-to-date and cost effective maps available. Metadata will allow you to determine when the map layers were last updated. Hard copy maps and index shapefiles are updated on a monthly basis.

Tobin lease summary maps

7.5 minute quadrangle maps

Maps are named by state abbreviation, county code, and USGS Quad IDs. For example: TX 149 29097-G1

Features of Data on Demand

- Tabular and spatial queries: Locating your area of interest is easy, using tabular or spatial queries to zoom into a visual representation of our applicable area. You can search the Tobin hard copy maps available by tabular queries using an address, latitude and longitude coordinates, place names, PLSS, TX abstract numbers or actual map names. You can also perform spatial queries.
- Guest user: You can use the P2 Energy Solutions Data on Demand Web site as a guest user without a username or password. You will need to enter a shipping address, billing address and credit card number each time you check out.
- User account: If you log in with a user ID, your shipping address will be stored and you will only need to enter a credit card number to check out.
- Corporate account: A corporate account enables you to purchase products either with a credit card or by using corporate funds in your account. A corporate account can include multiple user IDs. To establish a corporate account, contact P2 Energy Solutions at 1-800-678-4743.

Payment Security

To secure your transactions, P2 Energy Solutions has selected Authorize.Net to provide the payment gateway service. Authorize.Net enables P2 Energy Solutions to authorize, settle and manage credit card transactions for the P2 Energy Solutions Data on Demand Web site. The user only needs to click on the Authorize.Net seal to validate that the site is a secure Authorize.Net payment gateway. P2 Energy Solutions does not retain or store any credit card information.

The newsletter provides a technical analysis of the key issues faced by the E&P community regarding the use of spatial data, data formats, data models, application issues and best practices.
