

P2 Reporting Training Webinar Calendar

March 2021 – June 2021

P2 Energy Solutions is excited to announce a new series of webinars in 2021 to help users get the most out of P2 Reporting! Whether you are a brand-new user looking for an introduction, a long-time user looking to brush up on some advanced features, or a developer or IT professional looking to create the perfect report for your company, we have a course to help you pick up new skills and gain confidence working in P2 Reporting.

Date	Topic	Time	Trainer
March 17	Getting Started in P2 Reporting	8:00-12:00 MT / 9:00-1:00 CT	Edgeton
April 14	Advanced P2 Reporting	8:00-12:00 MT / 9:00-1:00 CT	Edgeton
May 19	Development Studio	8:00-4:00 MT / 9:00-5:00 CT	Edgeton
June 16	Getting Started in P2 Reporting	8:00-12:00 MT / 9:00-1:00 CT	Edgeton

Getting Started in P2 Reporting | Class Level: Introductory | Duration: 4 hours

This course provides an overview of P2 Reporting for all levels of users in P2 Reporting. We will look at how data is organized by domain with dimensions, measures, and calculations, and how to create ADHOC queries, reports and dashboards. This class is recommended for anyone who wants to learn the ropes of P2 Reporting and begin exploring data independently. There are no prerequisites for this introductory level class.

Course Objectives:

- Navigate the P2 Reporting library
- Understand domains and data sources
- Create an Ad Hoc query
- Create a Report
- Create a Dashboard

P2 Reporting for Advanced Users | Class Level: Intermediate | Duration: 4 hours

This course will explore P2 Reporting's advanced features, including drilling down, connecting visualizations, hyperlinking in dashboards, creating custom domains, establishing database connections, and joining data from different datasets. The course will also include a review of administrator tools, including diving into how data is organized by domain, how to set up users, and permission management. We recommend this class for anyone with an interest in creating more comprehensive reports and dashboards, as well as users who will be administering P2 Reporting. While there are no prerequisites for this class, we strongly suggest that you have some familiarity with P2 Reporting or attend the *Getting Started in P2 Reporting* course. With successful completion of this course, you will be able to create advanced dashboards,

manage and modify domains, create users, and understand how to combine accounting and production data.

Course Objectives:

- Create advanced dashboards
- Understand and modify Domains
- Create and manage Users
- Understand basics of joining data

Development Studio | **Class Level:** Advanced | **Duration:** 8 hours

This advanced course will include an overview of P2 Reporting for developers and IT professionals. Attendees will be introduced to Jaspersoft Studio, a powerful pixel-perfect report creation tool. Over the duration of this 8-hour course, you will learn how to modify existing content and create various reports of your own, from simple to complex, including tables, crosstabs, and HTML5 visualizations, then publish your finished result to P2 Reporting. There are no prerequisites for this class, but it is strongly suggested that users have experience with P2 Reporting. Experience with Javascript and other business intelligence or pixel-perfect report editors are a plus, but not required.

Course Objectives

- Navigate Jaspersoft Studio
- Modify existing reports for the P2 Reporting Library
- Design a table report
- Design a crosstab report
- Design a HTML5 chart report
- Publish reports to P2 Reporting

Pricing:

Each course includes entry for up to 4 participants from the same company. Classes cost \$250 per hour, and each participant must register independently to receive their unique log-in credentials.
