

# P2<sup>®</sup> Qbyte Financial

## THE MARKET LEADER IN FINANCIAL ACCOUNTING SOFTWARE FOR UPSTREAM OIL AND GAS PROFESSIONALS FOR OVER 30 YEARS

Qbyte Financial is a comprehensive financial accounting, reporting and joint venture operations management solution.

### GUARANTEED EFFICIENCIES

Qbyte 360 – built-in integration, interfaces, cross-application data comparisons and reporting

Optimize processes with third party applications using Qbyte Gateway

Easily manage master and transactional data through spreadsheets

Reversal management – multi-tier allocations, JIB transactions, accrual entries

### GREATER VALUE

Power of P2 – singular focus on building software for the upstream oil and gas industry

Secure web-based application

Commitment to solid software development methodologies; strong support structure

## Key Product Facts

1

Qbyte Financial is an industry standard, highly functional, and proven oil and gas application purpose-built to meet the needs of the Canadian oil and gas industry.

2

Qbyte Financial has clients ranging from the junior start up with a single accountant, to clients with accounting staff exceeding 300 people.

3

Qbyte Optix, our unrivaled reporting tool, is configured to provide point and click reporting and user inquiry directly from the Qbyte Financial application.

## Benefits

**ENSURES** all your accounting business is handled effectively and accurately within one application:

- o Joint interest management
- o Supports multiple currencies
- o Full audit reporting
- o Supports IFRS and ESTMA reporting needs

**REPLACES** spreadsheets and manual, error-prone processes with best-in-class software that boasts an intuitive UI built for growth-oriented customers

**ELIMINATES** data entry errors and duplication of effort through effective process automations including Qbyte Metrix and Qbyte CS Land integration, imports and spreadsheet uploads, mass ownership updates, and reverse billings

**AUTOMATES** time-consuming accounting practices enabling staff to be more efficient

**STREAMLINES** cross-department communication allowing for faster exchange of data and information
